

## A list of identified Jewish Cemeteries in Lithuania

Maceva – see <http://www.litvak-cemetery.info/>

This list of identified Jewish cemeteries in Lithuania is based upon the Maceva website and several other sources. If the cemetery has been documented, then a researcher can get the information directly from Maceva using the instructions on Maceva's website. Where you see "See Note," the information about the process of documenting the cemetery appears below the cemetery entry. Maceva considers a cemetery to be documented when the stones have been cleaned, photographed, and translated. If you are interested in raising the funds needed to complete documentation of a particular cemetery, please contact Maceva directly. The column "Full Documentation Still Needed" indicates an estimate of the number of extant gravestones in the cemetery based upon an evaluation visit, but no cleaning or photographing has been done. For a few of the cemeteries, documentation was done before Maceva was founded and the information is already on JewishGen.

This is a work in progress! Please let me know if you learn that the situation has changed for a cemetery.
